

Astrovision

A 74 m2 wide television screen with sound - placed at the centre of the Vision Square - at the central entrance of Amsterdam Airport Schiphol.

The Astrovision screen broadcasts from 06:00-00:00 hours, 7 days per week throughout the whole year. Astrovision provides our advertisers with a perfect image quality. Whether it is a rainy or a sunny day, the screen always automatically adjusts to the appropriate image quality. Combined with a perfect audio system the sound of this giant digital screen is heard all over the square.
