

# Digital Flyer Trolley

**Our digital Flyer Trolleys are ideal for flyering. It enables you to display your brand to a large group of customers from all over the world and personally interact with them.**

The trolleys can easily be adjusted to suit your corporate identity by using the three poster frames at the sides of the trolley. The digital screen on top allows you to communicate a dynamic and engaging message to your target group.

The FT TE 1322 uses a battery and remains flexible. The portait sized screen can't be tilt horizontally. This trolley has a leaflet holder.

The FT TE 1323 needs electricity which makes it not suitable for moving around. The screen however can be used either vertically or horizontally.

The table top can be used for leaflet holders, laptop holders, screens and light. Inside the trolley, your samples or flyers can be stored.

Accompanied by a team of brand ambassadors, your promotion will stand out in the crowd and personally interaction is guaranteed.

They can be booked from one day, a week or even a longer period of time.

<b>Number of trolleys available</b>	2
<b>Rate</b>	Depends on booking period

**Prior to production, designs should be submitted to Schiphol Media for approval**
